«Atom Security» LLC.

Dear Concerned

Proposal

StaffCop Enterprise is a completely new software solution developed for corporate sector. Our developers considered all requirements and wishes of our major clients while developing current solution.

We use most up-to-date technologies and programming languages to develop StaffCop Enterprise, enabling to easily scale it to any number of users and affiliates, as well as to custom develop its functionality for specific needs of our clients. Our product will be your irreplaceable assistant in employee monitoring, incidents investigation and data loss prevention.

Floating licenses are not bound to hardware and can be used multiple times on various computers.

The cost depends on the amount of computers to be monitored. The base price is multiplied with the amount of computers. The higher the number of computer, the lower the base price is.

Users to track	5-25	26-50	51-100	101-150	151-250	251-500	501-1000	1001+
Perpetual	$ 98	$ 91	$ 87	$ 81	$ 78	$ 75	$ 72	$ 69
12-months	$ 70	$ 65	$ 62	$ 57	$ 56	$ 53	$ 51	$ 49
3-months	$ 35	$ 33	$ 31	$ 29	$ 28	$ 27	$ 26	$ 25

Perpetual

The license works eternally.
The access to new versions of the software is optional. It's free for the first year from the moment of purchase. The following year costs 25% from the original cost in case the payment is made within this year, or 40% from the original cost in case the payment is made after the year.

12 months

The license works 12 months. The following year costs 40% from the original cost in case the payment is made within this year, or 60% from the original cost in case the payment is made after the year.

3 months

The license works 3 months. Suitable for short-termed local tasks or full-fledged pilot implementation.
